

RECONSTRUCTOR TREATMENT

- SOS Recovery & Ampoule -

Reconstruction
Treatment for
Damaged/Elastic
/Breaking Hairs

DIRECTIONS:

Before Colouring/Bleaching/Nanoplasty/Brushing, and Hydration:

1. Before the beginning of any of the procedures listed above, for already damaged hair (rubberised/elastic/brittle/fragile...); In a clean hair, with the hair slightly humid (10-20%), Apply the SOS Recovery Treatment thoroughly through the entire hair, use a comb to pull the product through the entire length of the strands, cover well, leave it for 10-15 minutes;
2. Rinse it completely;
3. Remove excess water of the hair;
4. Place the contents of the Power Recovery SK Ampoule in a bowl and add 30 ml of warm or cold water, constantly mixing with the help of a brush until you obtain a smooth, shiny, and consistent cream. Apply to the hair and leave on for 10 to 15 minutes.
5. Rinse it completely;
6. Dry the hair and proceed with the chemical/thermal procedure of your choice as normal.

SIZES & EFFICIENCY

SOS Recovery
300mL ≈ 20 Treatments

Power Recovery Ampoule
15mL = 1 Treatment
